## SUMMARY

---

Former operations professional turned full stack engineer with a product-first mindset. I combine a deep understanding of business processes and user needs to build practical scalable solutions that solve actual business pain points and make a tangible impact on growth.

## PROFESSIONAL EXPERIENCE

---

### Maiven Energy, Inc.

Boulder, CO

Full Stack Engineer

Oct. 2025 – Jun. 2026

- Architected an AI-driven virtual energy assessment service, automating the identification and categorization of residential home appliances from user-uploaded images.
- Integrated the Gemini API to process, verify, and normalize unstructured visual data into strict, highly accurate database schemas, ensuring reliable data capture.
- Accelerated the electrification project pipeline by engineering a token-based, frictionless approval portal that enabled landlords to securely sign agreements without platform registration, utilizing AWS S3 for document storage and database key retrieval.

### SBLive Sports (Sports Illustrated)

Remote

Full Stack Engineer

Feb. 2024 – Jul. 2025

- Led frontend development of a new photo gallery product using TypeScript, React, and GraphQL connected to a Ruby on Rails backend. The product now accounts for 15% of all user engagement on the site.
- Key contributor on a new interactive playoff pick em feature that is the first of its kind for high school sports.

Junior Full Stack Engineer

Feb. 2023 – Feb. 2024

- Collaborated within a small team to develop a state association management tool using TypeScript, React, Next.js, and Ruby on Rails, creating a new income stream through licensing.

### Sunday

Boulder, CO

Manager, Supply Chain and Operations

Nov. 2021 – Mar. 2022

- Bridged R&D and Engineering teams to facilitate the launch of new products on the company website.
- Led all purchasing, manufacturing, and inventory control for 65 finished products, streamlining processes and improving efficiency.

Supply Chain Manager

Jul. 2020 – Nov. 2021

- Managed cost-saving measures with third-party logistics partners, cutting shipping expenses by 15%.

### Ethan's Inc.

Boulder, CO

Project Manager and Web Lead

Jul. 2017 – Aug. 2019

- Led the design and launch of the company's initial website using Squarespace, then contributed to migrating to Shopify.
- Maintained the site by updating content, analyzing site traffic, and implementing SEO strategies to enhance performance and visibility.
- Balanced technical responsibilities with operational development, enabling business growth to \$2 million in annual revenue.
